ABOUT ME

I am Santiago Pujana Polanco, I am 23 years old, I live in Neiva, I am currently in my tenth semester of systems and computer engineering(Computer Science) at the Universidad Católica de Colombia, I have extensive knowledge in programming languages such as Python, Java and C/C++, passionate about computer security, networking and Linux operating system. My main characteristics and qualities are teamwork, creative thinking, effectiveness and efficiency when performing my work, I value the time of others, I am also honest, tolerant and humble, I am a person full of positivism and I like to learn new things from day to day that I can then share with others.
